Forecast for Saturday 07 May 2022

Weather: Most if not all will stay dry with good clear then sunny spells appearing across the area. However during the afternoon cloud may bubble up to bring the odd isolated light shower, particularly towards the Great Glen.

Chance of cloud-free hill tops above 800m: Near 100%

Low Cloud and visibility: Typically good or very good, briefly moderate in any showers and very poor within associated cloud that briefly clips the summits.

Met Office Aberdeen Meteorologist's View

Severe wind chill at first at height. Sunburn in exposure.

Forecast for Sunday 08 May 2022

Weather: Most if not all staying dry with best of the sunshine towards the Trossachs. However cloudier than Saturday with a chance of some light showers across far western peaks such as Ben More and the Paps of Jura from mid-afternoon.

Maximum wind: South mean 15-20mph with gusts reaching 30-35mph across most exposed ridges and summits.

Chance of cloud-free hill tops above 800m: 90% plus

Low Cloud and visibility: Typically good or very good, becoming moderate perhaps poor in any western showers and very poor within associated cloud that becomes broken from 600m at times, particularly later in the day.

Temperature: **Glens:** Plus 4 Celsius increasing 16 Celsius during the afternoon
At 800m: Plus 4 Celsius increasing 8 Celsius during the afternoon
Freezing level: Around 1500m
